Abdul Rehman (2303.KHI.DEG.035)

Arshad Shiwani (2303.KHI.DEG.026)

we create a **sprint** which we have to complete with in 2 weeks in sprint there are 2 epics and each epic has 1 story and story has 2 task.

The screenshot displays the Jira Software interface for a project named 'Assignment_6.1'. The left sidebar shows navigation options: PLANNING (Roadmap, Backlog, Board), DEVELOPMENT (Code), and Project pages (Project pages, Add shortcut, Project settings). The main area shows the 'Backlog' view for 'Assignment_6.1'. It lists two items under 'A61 Sprint 1' (23 May - 6 Jun, 2 issues): 'A61-2 Specification for newsday.com' and 'A61-22 Specification for www.spin.com', both in 'IN PROGRESS' status. Below this is an empty 'Backlog' section. On the right, a task detail view for 'A61-2 Specification for newsday.com' is shown, including a description, a link to 'Long Island's & NYC's News Source', a large 'N' logo, and an assignee 'Arshad Shiwani' with an 'Assign to me' button. The interface also includes a search bar, filters, and a 'Create' button at the top.

In Board showing all the status of the tickets we can analyse them how our sprint is going. Like we can see how many tickets we have in QA and how many tickets which we completed.

The screenshot shows the Jira Board view for a project named 'Assignment_6.1'. The board is titled 'A61 Sprint 1' and has a search bar and filters at the top. The board is organized into columns: 'TO DO 2 ISSUES', 'IN PROGRESS', 'QA 1 ISSUE', and 'DONE 1 ISSUE'. The 'IN PROGRESS' column contains two issues: 'A61-2 Specification for newscday.com' and 'A61-22 Specification for www.spin.com'. The 'QA' column contains one issue: 'A61-19 Make a scrappy spider for newscday.com'. The 'DONE' column contains one issue: 'A61-20 Scrape All Articles from newscday.com'. The left sidebar shows the project navigation menu with options like 'Roadmap', 'Backlog', 'Board', 'Code', 'Project pages', 'Add shortcut', and 'Project settings'. The bottom of the screen shows the URL: <https://abdulrehman035.atlassian.net/jira/software/projects/A61/boards/2/roadmap>.

Here we can see 1 epic is done.
